

### **Karney Tao**

This first week Karney helped with the project idea and made himself available for contribution at anytime.

Like: Very proactive in the first week of paperwork for this class and looking up our requirements. Improve: Nothing to improve from the first week.

Made sure to skype with us for each meeting and communicate well

Finished the story board exercise for our project, as well as thought of many ideas for the project

### **Kevin Jesse**

Showed up for meeting but got lost.

For this week he helped with the project idea and completed group meetings with meeting times for next meeting.

Like: Proactive in helping team with ideas and technical skills. Improve: Nothing to improve from what we have done so far.

On top of team meetings and requirements

Should follow the class schedule closer.

Kevin helped contribute ideas for the project idea and thought of ideas for UI.

### **April Mao**

Showed up for meeting on time. Came up with clever name with Brian.

Helped with the project idea. I started designing the app for ios and wrote sprint 1's storyboard stories for SCRUM board and contact ta for weekly meetings.

Like: April took the initiative to draw some mock up designs for the app. She also volunteered to be Scrum Master and worked on a large amount of potential user stories. She worked with me on hashing out the product idea as well. Improve: So far there is nothing to improve since there has not been that much time yet to evaluate anything and she has taken on a lot of work already.

Took initiative to be scrum master this week and organize meeting

### **Brian Wichers**

Showed up for meeting. Came up with clever name with April.

Came up with the carpool service app idea. Made the git repository and helped come up with storyboard ideas and more features.

Took initiative to make sure team completed all requirements

Brian initially thought of the project idea, as well as expanded upon the initial idea with many features.

### **Matthew Wang**

Went to meeting.

Helped with the project idea and more design features. Helped organize the team SCRUM meetings.

Like: He was very cooperative with the team and discussing potential app ideas. Improve: So far not enough time to see any improvement in anything.

Helped organize our team meeting

### **Loren Yeung**

Showed up for meeting early.

For this week he helped with the project idea and contacted team. Attentive in team messages.

Like: Proactive in wanting to work and discuss the project specs. Very willing to come meet with team whenever possible. Improve: Nothing to improve from week one.

Brainstormed many features for our product

Loren pitched many potential project ideas, as well as added on many insightful ideas to the project we chose.
